Welcome to Hope House Treatment Centers!

For over 40 years, Hope House Treatment Center, located on the campus of the former Crownsville Mental Health Hospital, has been providing high-quality, holistically integrated, patient-centered residential treatment for substance use disorders and related co-occurring mental health challenges, in a setting that is strengthened by kindness, offering patients the tools necessary for recovery. Our vision is to be a defining provider of recovery-oriented substance use disorder and mental health treatment for patients, who advocates on behalf of and supports families, as a positive change agent within the communities we serve. And we believe that each patient is entitled to recovery with unconditional kindness!

Each year, Hope House welcomes more than 1,000 men and women into treatment. We value each individual and their personal struggle for sobriety; our hearts go out to them and to their families for the suffering that addiction causes. It is our mission to reach out our hands to those who are hurting and offer the opportunity for a new life of recovery and sobriety. We are grateful to be a part of this life-saving mission, and when you support the work of Hope House, you collaborate with us in healing broken lives. Our hope is to be able to give others the opportunity for a new life, one that can be a light to others who are still struggling in the darkness.

Please take a few moments to review the enclosed materials and kindly refer any prospective clients to our organization if you feel we would be a good fit. Our admissions team will be available to answer any treatment related questions that you have.

It is never too late for hope!

Best,  
Pamela R. Browne, MHS  
CEO, Hope House Treatment Centers
